

ABDUL REHMAN TAHIR

Full Stack & AI Engineer

Email: tahirabdulrehman46@gmail.com | Phone: +(92) 323-4407791 | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack & AI Engineer focused on building scalable web products, reliable backend systems, and AI-enabled workflows. Experienced across modern JavaScript/TypeScript stacks, API development, database-backed product features, and practical AI integrations for business and learning platforms. Strong at turning product requirements into clean interfaces, structured data flows, and production-ready features.

CORE TECHNICAL SKILLS

Frontend

React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, responsive UI

Backend

Node.js, Express.js, Fastify, Nest.js, Next.js, Fast-api + Python, RESTful APIs, authentication, server-side logic

AI Engineering

AI product integration, LLM workflows, automation, RAG, AI Calling/chatting agents and prompt-driven features

Data & Tools

MySQL, PostgreSQL/Supabase, Git, GitHub, Vercel, Railway, Render, API testing and Postman

PROJECT EXPERIENCE

DealerIQ - Scalable Dealer Operations

Nov 2025 - Present

Full Stack & AI Engineer | A scalable dealer-operations product for organizing workflows, operational data, and connected services.

- Built structured workflow modules and backend API flows for dealer operations.
- Worked across React/TypeScript frontend, Node.js services, RESTful APIs, and data modeling.

Tech: TypeScript, JavaScript, React.js, Next.js, Node.js, RESTful APIs, Nest.js, Fastify, Python, FastAPI | **Link:** [DealerIQ](#)

Befer AI - Collaborative AI Product

Oct 2025 - Present

Full Stack & AI Engineer | A collaborative AI-enabled product experience combining modern web engineering, backend services, and AI-assisted functionality.

- Contributed to full-stack feature development across UI, backend routes, and database-connected flows.
- Integrated AI-enabled product experiences into user-facing workflows.

Tech: TypeScript, JavaScript, React.js, Node.js, Next.js, RESTful APIs | **Link:** [Befer AI](#)

Studiloom - Enterprise Learning Platform

June 2026 - Present

Full Stack & AI Engineer | An enterprise-level learning platform connecting academic workflows, communication, and student services in one secure system.

- Developed role-based and modular platform features for academic and administrative workflows.
- Supported secure, connected service flows across frontend and backend layers.

Tech: React.js, TypeScript, Node.js, Next.js, JavaScript, Express.js | **Link:** [StudiLoom](#)

PROFESSIONAL STRENGTHS

- End-to-end product development from UI to APIs, databases, deployment, and iteration.
- Strong product sense for converting real operational problems into usable software.
- Clear communication, collaborative execution, and attention to maintainable architecture.

EDUCATION

Computer Science / Software Engineering - University of Education, Lahore - Bachelor of Science & Technology

AWARDS/CERTIFICATE

Awards/Certificate: CS50P – Introduction to Programming with Python

November 2025
